

TAX CHANGE NOTIFICATION

July 29, 2019

On April 2, 2019, the voters of Grand Junction authorized a 0.5% increase in the sales and use tax rate for the City of Grand Junction, effective January 1, 2020. The increase was approved to fund police, fire and emergency medical services including without limitation, building, equipping and staffing new fire stations and hiring, employing, training and equipping police officers, firefighters and emergency medical service (EMS) personnel and employees. The 0.5% tax rate increase will be collected on all sales and/or use taxable transactions in the same manner as the current 2.75% sales and use tax in accordance with the Grand Junction Municipal Code 3.12.030 et seq. You may find the applicable municipal code at <http://www.gjcity.org/city-government/financial-operations/sales-use-and-lodging-taxes/>.

The new 3.25% sales and use tax rate becomes effective for transactions occurring on or after January 1, 2020. This means the new sales and use tax rate will first be reported on the tax returns due on February 20, 2020 or later. If you receive and use a tax booklet, your 2020 booklet will be mailed in late January for monthly filers and February for quarterly and annual filers.

Please do not hesitate to contact me or Tatiana Gilbertson, Finance Supervisor, at tatianag@gjcity.org or 970-256-4025 if you have questions.

Thank you,
Jodi Romero
Finance Director, City of Grand Junction
